

The Enterprise Doc Explorer tool in the AI Center allows Grants monitoring program staff to upload documents such as the Notice of Award, grant guidance, and quarterly performance reports to create a user specific knowledgebase and the tool compares the reported performance against the original award requirements. All analysis findings are advisory, and all decisions remain fully in human hands. This automation simply speeds up the review process and helps staff focus on areas that may need further attention.

Upload Documents

Disclaimer

Each set of documents uploaded is associated with a specific knowledgebase, which serves as a structured repository for organizing and managing related documents. Knowledgebases ensure that documents are grouped logically, enabling better organization and streamlined access to relevant information.

Please note that all uploaded documents are processed securely and stored in the system for **seven (7) days**. Ensure no sensitive or confidential information is included unless necessary.

Select Files
Manually select up to 5 files. Only accepts .pdf.

Select Folder
Select a folder directory and upload up to 5 files.
Only accepts .pdf.

Document Stats

KNOWLEDGE BASE 0 The number of knowledge bases in the system.	TOTAL DOCUMENTS 0 The number of documents available in the system.	LAST UPLOAD N/A The last time the document statistics were updated.
